Water-water-water seems to be water-water water seems to be
the crying need of farmers, manufacturers and even railroad corporations.
It has become known that the New
York, New Haven & Hartford railfood is beginning to be sorely pressed
because of a shortage of water and
this is especially true as far as the
Air Line section of its system is concerned.

Passenger and freight trains runing over this section are badly hand-capped because of an inadequate waor supply at certain points along the ne of the Air Line division. The clace that is giving the most trouble, ust at present, is Colchester, where t is almost impossible to tank up as it is almost impossible to take up as as practically necessary to run the trains on schedule time. In order to make a sufficient quantity of steam the trains must take on a good supply of

More Trouble for Horses.

A recurrence of the recent acciden that cost the life of one of a pair of Foley & Henry's truck horses by reaon of the animal sustaining a broker leg as he was assisting to back a load into the allewway between the Murray building and the Holmes block, was narrowly averted Friday afternoon at 3.45 o'clock, and by the same firm's cam, one of which was the mate to he horse that had to be shot.

The driver was endeavoring to back the truck into the alleyway and the heavy pair of horses loosened the small iron grating before the load was fully backed in and on one of the attempts the grating became dislodged and tipped up vertically and fell into the drain but remained in a vertical position. But for the watchfulness of a bystander the nigh horse would doubtless have got one of his forward legs caught in the hole and possibly have broken a leg. The attention of the driver was called to the condition of the grating and he drove ahead and sverted an accident

Today's Game at Norwich.

The Windham high school football squad has been practicing every day the past week or so, and while the candidates for the eleven are in many instances pretty light, what is lacking in beef is made up in speed, and the outlook for a speedy eleven is bright. The eleven has not been definitely picked yet, but the first real tryout of the year will come with Norwich Free Academy at Norwich today. Probably fifteen men will be taken on the trip and all given a try during the four periods of the game.

The line-up for the Coits for the past season, has secured a clerkship in the freight department of the Central Vermont railroad and went to Palmer, Mass. Friday to begin his duties at the station in that place.

The line-up for the game, as far as can be learned, will be as follows: Vanderman and Frost, ends; Kelley and Linderbeck, tackles; Staebner and French, guards; Martin, center; Weatherbee, quarterback; Capt. Keirans and Harrington, halfbacks, and Crane, fullback. Downer and Wallen are two of the substitutes and there are oth-

A contingent of students is planning to go with the cleven and witness the game at Norwich. They will root loy-ally for the Windham team, although the most ardent supporter of the school hardly hopes for an extremely good showing.

When your blood is thin, your appetite poor, your energy all gone and your system generally in a run-down condition, don't be discouraged. Take Duffy's Pure Malt Whiskey. It will make you well and strong, just as it did Mr. Weinstock.

"I have been using Duffy's Pure Malt Whiskey for several years and it has improved my health very much. I have felt fine ever since and I tell all my friends about it. Before using this great medicine I was run down n health, had no appetite and was losing weight rapidly. But since using it I have completely recovered my health and have gained over 35 lbs. Mr. M. Waxler, of 725 Mifflin St., one of the friends to whom I recommended your malt, and who was generally worn out, is as pleased with the results and benefits derived from the use of same as I am and we determined to give our testimony, hoping that it will be the means of helping some poor sufferers to better health, like ourselves." Better Than the Water Wagen. Heretofore the water wagon has been a favorite prohibition emblam, but since the party candidate for gov-ernor of Connecticut hitched his horse to a hose cart and drove it to a fire it seems as if, in that state at any place of the street sprinkler. In a way it is a much better emblem; it is a more vigorous vehicle; the water It throws is a livelier and more ef-fective stream; and the service it per-forms is far more important. Mr. Hohenthal's campaign buttons hereafter should bear the device of a
hose cart, courant, and the stimulating exhortation, "Pot out the fire!"—
